

Summer Business ANALYST

WEALTHARC is a Polish-Swiss **FinTech startup** with offices in Warsaw, Geneva and Zurich. We are developing **SaaS** product using **.NET C#** and **Microsoft Azure cloud**, that will shape the future of wealth management – we have been recently awarded by WealthBriefing for the most innovative client and FinTech solution for wealth management in Europe.

You will fit **the culture of our startup** if you believe that technology drives change and you are a born innovator. We attract people who are creative, eager to face challenges and big responsibilities.

We're currently looking for a **SUMMER BUSINESS ANALYST**. The role involves:

- Conduct market research and present business recommendations
- Analyze complex data sets to identify trends or resolve issues
- Analyze product strategy and prepare new feature requirements
- Evaluate test results and help ensure highest product quality
- Provide hands-on support to our clients
- Bring own ideas to an environment that encourages innovation

Requirements:

- Student or recent graduate in Business, Economics, Finance or related
- Passion for technology and finance
- Passion for problem-solving and continuous learning
- Excellent communication and presentation skills
- Proficiency in English, German is a plus

We offer:

- 3-month long paid internship with an option to extend cooperation
- Great working atmosphere
- Flexible working hours
- Multi-national working environment
- Opportunity to participate in Tech Talks, training sessions and conferences
- Opportunity to learn and grow working with a great team of developers
